

# Spring Cleaning

**It that time of year when the weather turns warmer and we turn our attention to making our homes the best they can be. Take a walk around your home and check the following:**

- **Shrubs** – do they need trimming or replacing?
- **Lawns** – does bare areas need sod? Are curbs free of leaves?
- **Weeding and Mulching** – is the flowers/shrubs free of weeds and freshly mulched?
- **Exterior Home Cleaning** – does the house and trim need a good pressure washing?
- **Fences** – do you have an adequate fence to cover the A/C unit and hide trash cans? Is that fence in good condition and clean? If you live along Anastasia Lakes Drive, backing up to The Islander, is the portion of fence in your backyard clean?
- **Miscellaneous Yard Items** – are there any empty flower pots or pots with dead flowers, ladders, wheelbarrows, etc. sitting around? These items are part of the neighborhood scenery. Please tuck these items out of site. Your home's sides and back are seen from your neighbors.
- **Trash/Recycle Containers** – should be kept either in garage or behind a fence (not in hedges) where they are not visible from the street or neighbors.

**Thank you for taking the time to check your home and making any needed improvements.**
